

# 100 Days of Code - Python Day 1

## - Basics (Variables, IO, Datatypes)

---

### 🎯 Learning Objectives

## Indents Matter

Python

```
1  def main(parameter):
2      fruits = ["apple", "banana", "cherry"]
3      for fruit in fruits:
4          print(fruit)
5
6      return f"Hello, {parameter}!"
7
8  if __name__ == '__main__':
9      print(main("World"))
10     userInput = input("Prompt: ")
11
```
